

Amendments to the Claims:

The following listing of claims replaces all previous versions and listing of claims in the application.

Listing of Claims:

Claims 1-6 (Cancelled)

7. (Currently Amended) A method of acquiring information about a location at which desired services or information can be obtained, the information available on the World Wide Web or in a database, comprising:

selecting a telephone number[[, Zip code or airport code]] corresponding to a known location;

making a correlation between the telephone number[[, Zip code, or airport code]] and the known location;

searching at least one of the World Wide Web and a database to identify locations at which the desired services or information can be obtained;

selecting at least one of the identified locations at which the desired services or information can be obtained;

determining, for each selected location, a distance between the known location and the selected location; and

displaying the selected locations in order of distance between the known location and the selected location.

8. - 11 (Cancelled)

12. (Previously Presented) The method of 7 further comprising determining a latitude and longitude corresponding to the telephone number.

13. (Currently Amended) The method of claim 7 wherein the telephone number contains a telephone area code, further comprising determining a latitude and longitude corresponding to the telephone area code.

14. - 23. (Cancelled)

Cancel claims 15-23

24. (Currently Amended) [[The method of claim 7 further comprising]] A method of acquiring information about a location at which desired services or information can be obtained, the information available on the World Wide Web or in a database, comprising:
selecting a telephone number, Zip code or airport code corresponding to a known location;
making a correlation between the telephone number, Zip code, or airport code and the known location;

searching at least one of the World Wide Web and a database to identify locations
at which the desired services or information can be obtained;
selecting at least one of the identified locations at which the desired services or
information can be obtained;
determining, for each selected location, a distance between the known location
and the selected location;
displaying the selected locations in order of distance between the known location
and the selected location, and
providing advertisements based on the known location while displaying the
selected locations.

25. (Currently Amended) The method of claim 7 wherein a mobile device is used
for selecting the [[a]] telephone number_{[[, Zip code or airport code]]} corresponding to a
known location.

26. (Currently Amended) The method of claim 25 also comprising providing
advertisements while displaying the selected locations, the advertisements selected based
upon the nature and location of the search irrespective of the current location of the
[[GPS]] mobile device.

27. (Previously Presented) The method of claim 7 wherein the information about
a location at which desired services or information can be obtained includes information

Application Serial No. 10/708,494
Amendment dated December 11, 2007
Responding to Office Action of September 27, 2007

about at least one type of service available at that location and further comprising
displaying, for at least one selected location, information about at least one type of
service available at that location.
